

Triton Owners Club

OF GREAT BRITAIN

Are you thinking of building a Triton.?

Do you already own a Triton?

We are a group of enthusiasts who have built Tritons but have found that there is a real need to found a club for this marque.

Even though the Triton is a hybrid motorcycle we think it is one of the best combinations of engine and frame you can put together. Utilising the power of the Triumph engine, with the handling of the Norton featherbed frame.

Not only are we looking for members to get this club up and running, but we need as much input as possible from our members in the running and the organising of this club. We are also talking to suppliers of specialist parts for the Triton builder and trying to acquire discounts for all associated members of the club.

We dont expect the club to be up and running properly for some time but the more help we get the quicker we can get ourselves organised.

So if your interested in joining such a club where help will be at hand if you need it while building your bike or just want to get involved and meet like minded people give us your details below

NAME.....
ADDRESS.....
YEAR OF BIKE.....
ENGINE CC.....
FRAME W/L S/L.....
GEARBOX.....
NUMBER OF GEARS.....
FRONT BRAKE.....
REAR BRAKE.....
SPECIAL FEATURES.....

It would be appreciated if a photograph could accompany all the relevant details for future reference as we hope to produce a newsletter to start with and hopefully progress to a monthly members magazine. Again this is based on how quickly the club grows and the input everybody gives to the club.

Please send all details to Steve Blackwell
